

Officials Star Sportsmanship Requirement

The AHSAA Central Board of Control passed the requirement for all officials who register with the AHSAA to complete the Officials Star Sportsmanship component prior to working any contest in the future. The component is ready to be done. All officials must complete this program prior to working a future contest. It will take about 30 minutes to go through online. We will be checking the records of those who have completed this component prior to each sport season. Please go ahead and get this done when you get a chance. It will provide some good insight into your own thought process during a contest. All coaches and players have already been required to do this in order to participate.

Just follow the directions listed below:

To Access STAR Sportsmanship as an Official:
